TELECOMMUNICATIONS SERVICES

A complete range of telecommunications services is available to all government users. GO-Net services encompass telephone (local and intercity), fixed and mobile radio communication systems, radio paging systems, data communication systems, voice processing systems, facsimile, video, satellite and various other special telecommunication systems. A new series of value added services have been introduced as part of GO-Net, they include: Electronic Data Interchange (EDI), Credit Card Authorization Services, and the Electronic Post Office (EPO). Both operational and advisory services are provided. Operational services include telecommunication systems design, systems/service acquisition, systems implementation, and the provision and management of shared multiministry telecommunication services. Advisory services include system feasibility studies, systems planning, hardware and software evaluation, project management and coordination, and both the preparation of request for proposals and evaluation of supplier proposals.

To obtain information or assistance regarding these services, call your MBS Customer Support Representative. The name and number are located under the Services Division, Information Technology Customer Service and Support Branch listings within the Management Board Secretariat section of the Management Board of Cabinet.

VOICE PROCESSING SERVICES

Users of **VOICE MESSAGING** can accomplish more with their time. By using the shared long distance Ontario Communications Network (OCN), users can call anywhere in the province and leave detailed messages in their own voice, sometimes eliminating the need for a two-way person-to-person conversation. Voice Messaging allows users to reach people who are frequently away from the office and also allows those working off site to communicate with their colleagues. And, through the networking feature, subscribers can create and then distribute, with one phone call, a common message to other Voicenet subscribers located elsewhere in the province regardless of time of day.

INFORMATION MAILBOX/AUDIOTEX lets callers get information without the need to speak with a "real" person. The information mailbox can be designated to handle many categories of routine and frequently asked questions to allow the public greater access to government information. This lets staff handle more calls around the clock. Enhanced optional capabilities allow callers to both record replies to announcements and reach an operator.

AUTOMATED ATTENDANT answers incoming calls promptly and guides callers to select the extension of the right person or department. When calling into a general inquiry number, the caller is prompted to enter the person's extension number or to spell the person's last name. After the number or name is entered using a touchtone keypad, the automated attendant service transfers the caller to the desired extension. If a specific ministry person is not known or required, the caller has the option of speaking with the ministry attendant.

INTERACTIVE VOICE RESPONSE (IVR) is a service used to automate both telephone inquiries and business transactions. Using a touch-tone keypad, authorized callers can access pre-recorded information about a ministry program and then enter or get approved information from the ministry host computer. Information is spoken back to the caller in a pre-recorded voice without operator involvement. Enhanced features offer the ability to conduct credit card transactions, including payments.

AUDIO TELECONFERENCING (CONFERENCE CALL)

Audio Teleconferencing is an innovative and practical way to have meetings with your colleagues using the telephone without the need to travel. This service allows you to have meetings any time, anywhere, with many people at different locations.

All you need is a regular phone, or you can use boardroom conference speaker phones.

It is a convenient, economical, reliable and timesaving service available to the Government of Ontario. An excellent resource for regularly scheduled meetings, special meetings, emergency meetings, presentations, announcements, training and education, planning sessions and consultations. Fax: (416) 325-3396

To make a reservation call (416) 325-3400 between the business hours of 8:00 a.m. to 6:00 p.m., Monday through Friday.

For an information package or more information on audio teleconferencing call (416) 327-3113 or (416) 325-1092. Fax: (416) 325-3396

YOU AND YOUR VOICE MAIL TIPS FOR SUCCESS

Voice mail, a Voicenet Ontario service provided by Management Board Secretariat, can be one of your most effective business tools, whatever your job or your ministry.

Voice mail improves your ability to communicate because it can be used any time of the day or night, regardless of office hours and time zones.

But it's important to be professional in your use of voice mail — or else it could be seen as impersonal and irritating to your callers.

By adopting the following guidelines, you can help ensure you take full advantage of this service and avoid any pitfalls!

Answer Your Phone When You're At Your Desk

- don't use voice mail to screen calls

Use Call Forwarding

- call forward your phone when away from your office — don't make your callers wait 3-4 rings before being answered

Personal Greetings Are Important

- update your personal greeting daily
- make it enthusiastic and courteous
- indicate when the caller can expect to have her/his call returned
- offer an alternate contact for emergencies
- return messages promptly
- use the extended absence greeting when you plan to be away for more than a day

Give Your Callers An Option

- using a Touch-Tone phone, callers should be able to 'press 0' and be connected to your receptionist during office hours
- rotary dial callers should be given an alternate greeting telephone number to call to reach your 'live' telephone support person
- clearly state this information in your personal greeting — callers have the right to speak to a human being!

Be Security Conscious

- use a minimum six digit password — maximum fifteen
- keep your password confidential
- don't use easily guessed numbers such as your phone number, birth date or the same repetitive digit
- change it once a month
- suspect a security problem? Contact your Ministry Voice Mail Coordinator

A Sample Personal Greeting You May Wish To Consider

- you have reached (name)
- today is (date)
- I'm in the office today, but either on the phone or away from my desk
- please leave a detailed message after the tone, and I'll return your call as soon as possible
- if you need immediate assistance, press '0' on your touch-tone phone or dial (reception number)
- thank you

Following these tips will help us to meet our common objective of providing good customer service to our callers!

CALL DISPLAY

Call display, also known as Caller ID, presents a visual display of the calling party's telephone number on a special type of telephone equipped with a screen.

Caller ID is presently used within the government of Ontario only for internal calls; however, increased use is probable, as the technology becomes more widespread.

As Caller ID becomes more widely available, concerns have been raised about the potential for this technology to invade an individual's privacy. The primary concern is that Caller ID allows for the display and collection of telephone numbers without the knowledge or consent of the caller.

Below is a summary of Caller ID guidelines developed by the Information and Privacy Commissioner/Ontario under the mandate of the Freedom of Information and Protection of Privacy Act and the Municipal Freedom of Information and Protection of Privacy Act.

● **APPROPRIATENESS OF CALLER ID**

Be sure to carefully evaluate the usefulness and appropriateness of knowing who is calling and from where in order to determine legitimate circumstances for using Caller ID.

● **IDENTITY OF CALLER**

Do not assume the identity of a caller based on caller display information. Employees should take all reasonable and appropriate steps to verify the identity of the caller before disclosing personal information over the telephone.

Because call display may not provide a reliable mechanism for identifying a caller, automatic retrieval of files containing personal information on the basis of caller display only is not recommended.

● **BUSINESS CALLS MADE BY GOVERNMENT EMPLOYEES FROM NON-GOVERNMENT TELEPHONES**

Employees should take steps to guard against the potential collection and misuse of the telephone number, when making business calls from telephone lines outside of government offices. These steps may include the use of call blocking or public telephones. Free call blocking is available for most telephone lines upon request from the telephone company. Where call blocking has not been previously requested or is not available for a telephone line, there will be a charge for blocking caller display information through the operator.

● **LOCATION OF CALLER ID EQUIPMENT**

Steps should be taken to ensure that equipment is located in a manner such that caller display information is not disclosed to unauthorized individuals or others who do not have a need to know.

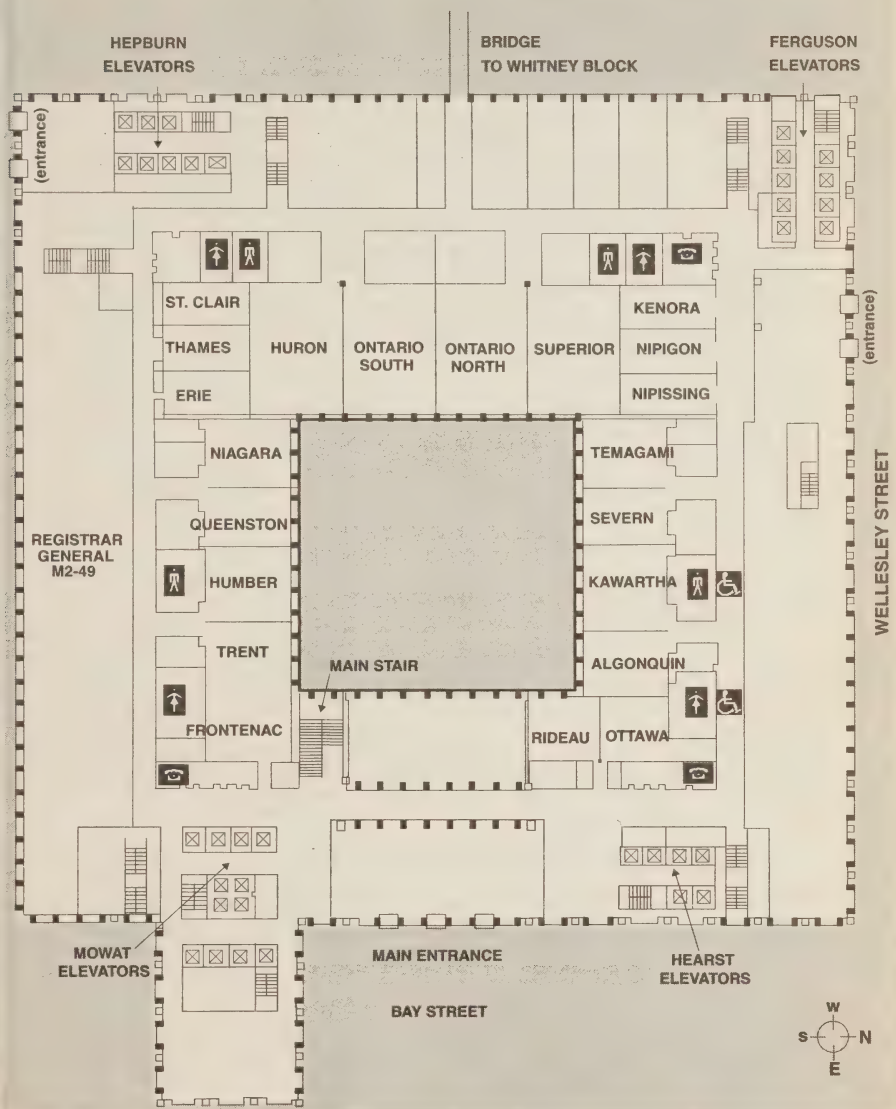

CONCLUSION:

An awareness of the privacy concerns associated with Caller ID should be integrated into the daily practices of government organizations using this service.

LEGISLATIVE ASSEMBLY OF ONTARIO

The Legislative Assembly, commonly called the House, consists of 130 Members of Provincial Parliament (MPPs) elected to represent the people in their constituencies. The Assembly performs legislative, financial and critical functions. It considers proposals for legislation or bills; enacts, amends and repeals legislation; authorizes the collection of funds from the people of Ontario; and scrutinizes the policies put forth by the government. As the presiding officer, the Speaker of the Assembly is responsible for both the policy and operations of the Legislature. The Clerk of the Assembly, in the capacity of principal permanent officer, provides the Speaker and MPPs with procedural advice.

INFORMATION AND PRIVACY COMMISSIONER/ONTARIO

**Suite 1700 80 Bloor St W
Toronto ON M5S 2V1**

The Information and Privacy Commissioner (IPC) oversees the Freedom of Information and Protection of Privacy Act and the Municipal Freedom of Information and Protection of Privacy Act. These acts grant individuals the right of access to government-held records and the right to protection of personal information held by the government.

The office has two responsibilities: ensuring the public's right of access to government-held information; and protecting the individual's right of privacy, as it relates to personal information held by provincial and local government organizations. Anyone not satisfied with a government decision about access to information may ask the IPC to review the government's decision. In addition, the IPC investigates complaints from individuals who feel the government has wrongfully collected, used, or disclosed their personal information.

The Commissioner reports directly to the Legislative Assembly.

MINISTRY OF AGRICULTURE, FOOD AND RURAL AFFAIRS

1 Stone Rd W
Guelph ON N1G 4Y2

The vision of the Ministry of Agriculture, Food and Rural Affairs is to foster competitive, economically diverse and prosperous agriculture and food sectors and to promote economic development and job creation in rural communities. The ministry works in partnership with an industry that contributes more than \$25 billion annually into the provincial economy and employs more than 640,000 people on farms, in food plants, in grocery stores and in many related businesses. The ministry plays a key role in bringing a strong agricultural and rural perspective to provincial policies and works with other ministries to resolve local economic issues and to assist rural communities in retaining and attracting business. Most ministry branches operate from the headquarters at 1 Stone Road West, Guelph. Staff in 42 service locations across the province provide a range of agri-food and rural economic development programs and services to clients.

MINISTRY OF COMMUNITY AND SOCIAL SERVICES

7th Flr Hepburn Block 80 Grosvenor St
Toronto ON M7A 1E9

The Ministry of Community and Social Services provides programs and services for: children, adults, physically and developmentally handicapped individuals and those in financial need. The Ministry of Community and Social Services, established in 1930 as the Department of Public Welfare, was formed as a result of the Ross Commission on Public Welfare. The Old Age Pensions, Mother's Allowance and Children's Aid branches, previously administered by the Provincial Secretary and the Unemployment Relief Branch from the Department of Labour, were amalgamated under the new department. In 1967, the name was changed to the Department of Social and Family Services and, in 1972, it became the Ministry of Community and Social Services.

In 1974, the ministry acquired the Mental Retardation Program under the Developmental Services Act from the Ministry of Health. The children's services programs were transferred from the Ministries of Health, Correctional Services and the Attorney General.

The Ministry of the Environment's mandate is to protect and enhance the quality of the environment for the present and future well-being of the people of Ontario. The ministry's core business areas are: protecting the quality of the natural environment (environmental protection); and encouraging environmentally sustainable use of our water, land, energy and material resources (conservation). MANAGEMENT BOARD OF CABINET

12th Flr Ferguson Block 77 Wellesley St W
Toronto ON M7A 1N3

The Management Board of Cabinet (MBC) is the Committee of Cabinet responsible for the management of the public service and the operations of government. MBC provides central leadership on the management of the government's financial, human and physical resources, which support fiscal and policy priorities. In December 1971, the Management Board of Cabinet Act established the board and its secretariat and gave the board its authority. Officially representing the Government of Ontario as the employer of its public servants, the board consists of a Chair, a Vice-Chair and four to six other members of the Executive Council designated by the Lieutenant-Governor-in-Council. The Management Board Secretariat provides staff support to the board in matters related to the Management Board of Cabinet Act and Public Service Act, respectively.

MINISTER RESPONSIBLE FOR PRIVATIZATION

**Suite 600 56 Wellesley St W
Toronto ON M7A 1C1**

The Minister without Portfolio Responsible for Privatization has the responsibility for reviewing government businesses and entities through the Ontario Privatization Review Framework to see if continued government involvement is warranted, and if there are ways to improve service and value to taxpayers. Each review will incorporate expert advice and public input and will consider a wide range of options, including different forms of public/private partnerships, joint ventures, long-term leasing, not-for-profit corporations, the divestiture of assets, and having the government retain the business, improving its service and operations.

The Cabinet Committee on Privatization (CCOP) oversees the process and sets guidelines for protecting the public interest. CCOP also makes recommendations to Cabinet on approval of privatization candidates and priorities, on regulatory and legislative changes, and develops and oversees implementation.

In recognition of the world's rapidly aging population, the United Nations has declared 1999 the International Year of Older Persons (IYOP). The purpose of the Year is to foster international awareness of seniors' role in society and the need for intergenerational respect and support.

In response to this unique opportunity, the Government of Ontario, through the work of the Seniors' Secretariat, is reaffirming its commitment to caring for an aging society by recognizing seniors' and caregivers' special contributions to our province. In all communities throughout Ontario, generations will be united through special events celebrating the province's IYOP intergenerational theme *Ontario, a province for all ages*.

You can participate in the International Year of Older Persons by planning how you, your family or your community can work for or with, older persons. To learn more about the IYOP or how to participate in the IYOP celebrations, you can visit our Web site at: <http://www.gov.on.ca/health/iyop>; or call 1-888-910-1999.
